Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin brand is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step further by choosing a Daikin brand energy-efficient ductless split system. We have designed and engineered all of our products to provide years of consistent indoor comfort – delivering you and your family premium *Comfort for Life*.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that help use energy resources more effectively. Daikin LV Series systems feature wall-mounted units with a sophisticated appearance and a flat panel design. The Daikin brand LV Series units provide efficient and economical cooling and heating performance. A Daikin single-split ductless system is ideal for single rooms, enhancements and additions up to 1,460 square feet.*

* Equipment selection should always be based on detailed load calculation performed by a qualified technician.

Smart inverter technology

Integrated with an inverter variable-speed compressor, ductless systems deliver the capacity required to maintain desired room conditions, reducing energy consumption by up to 30% or more (compared to traditional fixed-speed ducted systems). This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

Intelligent eye technology

The Daikin brand LV units are equipped with an intelligent eye feature that detects movement and automatically changes to an energy saving mode when movement is not detected for over 20 minutes. Normal operation resumes once movement is detected, ensuring a comfortable experience and offering savings up to 20% in cooling and up to 30% in heating, compared to units without movement detection.

Easy to program

With the ability to program up to four settings per day, the weekly timer allows users to personalize on/off times and temperature settings. Delivering heating and cooling when it is needed most, this feature provides customizable comfort with energy savings.

Individual comfort and control

Daikin remote controls provide individual temperature control at the click of a button. The LV Series ductless split systems are compatible with the Daikin brand ENVi intelligent thermostat. Designed with energy savings performance in mind, this thermostat offers the freedom to access, program and control the system from a smart phone, tablet or computer.

Count on a Daikin brand ENVi thermostat to deliver premium *Comfort for Life* to your family for years and years.

Handheld Remote Control
