Comfort for Life

Daikin is a global leader for indoor comfort, with millions of systems installed throughout the world.

Daikin has been improving the comfort of its customers with exceptional products and services for many generations.

To explore all of our solutions for premium indoor Comfort for Life, visit www.daikinac.com.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin brand is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step farther by choosing a Daikin brand energy-efficient ductless heat pump. We have designed and engineered all of our products to provide years of consistent indoor comfort – delivering you and your family premium *Comfort for Life*.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that help use energy resources more effectively. Daikin Quaternity systems incorporate technological innovations that deliver features and benefits superior to traditional mini-split systems. Equipped with built-in intelligence and extensive features in a high-efficiency system, Quaternity provides a comfortable and refreshing indoor environment with outstanding filtration and climate control.* Quaternity is our most efficient residential ductless product.

* Equipment selection should always be based on detailed load calculation performed by a qualified technician.

ENERGY STAR® and the **ENERGY STAR** mark are registered trademarks owned by the U.S. Environmental Protection Agency. **ENERGY**

STAR products are third-party certified by an EPA-recognized Certification Body. Products that earn the **ENERGY STAR** prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR** criteria. Ask your contractor for details or visit www.energystar.gov.

Smart inverter technology

Integrated with an inverter variable-speed compressor, this heat pump system delivers the capacity required to maintain desired room conditions, reducing energy consumption by up to 30% or more (compared to traditional fixed-speed ducted systems). This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

Intelligent heat exchanger technology

Utilizing intelligent indoor heat exchanger technology, dehumidification can be achieved while maintaining room temperature and controlling humidity to a relative setting. Whether dehumidifying is needed on a hot summer day or a warm rainy night, Quaternity can provide a refreshingly cool experience while maintaining year-round comfort.

Individual comfort and control

Individual temperature control provides comfort for the entire space. With effective cooling and heating coverage at quiet operating sounds as low as 26 dBA for indoor units and 46dBA for outdoor units, these systems combine excellent comfort control with lifestyle convenience all at the touch of a button.

Built-in reliability

All major components are engineered and manufactured by Daikin, ensuring maximum performance, reliability and efficiency. From the internal motors and compressors to the exterior anti-corrosion treatment and self-diagnostic function, Daikin ductless systems are built for durability.

DAIKIN

COMFORTABLE LIMITED WARRANTY* PROTECTION

*Complete warranty details available from your local dealer or at www.daikinac.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Comfort and Efficiency

When properly installed, this ductless unit provides energy efficiency up to 26.1 SEER, heating season performance up to 11.0 HSPF and up to 15.8 EER.

www.daikinac.com

PREMIUM COMFORT FEATURES:

Energy Efficient – Up to 26.1 SEER, 11.0 HSPF, and 15.8 EER for efficient cooling and heating operation and exceptional savings on utility bills compared to conventional lower-efficiency systems.

Tax Credit and Rebate Qualification – May qualify for federal tax credits, local rebates and utility incentives.

Undisturbed comfort – Indoor and outdoor units offer exceptionally low sound levels for premium comfort without the noise.

Integrated Air Cleaner – Long life, washable filters and an integrated air cleaner help reduce mold, bacteria, viruses and allergens.

Wireless Control – Hand held remote features an LCD screen with backlit display, Econo Mode, Powerful Mode, and more.

Ideal solution for:

- Hot or cold rooms
- Rooms with poor air flow
- Renovations and remodeling
- Primary living areas (master bedrooms and living rooms)
- Basements, attics and garages
- New construction

Daikin brand ductless systems are designed to maintain indoor comfort and energy-efficient operation.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

DAIKIN: THE PREMIUM BRAND INDUSTRY LEADER

Daikin Industries, Ltd. (DIL) is a global Fortune 1,000 company which celebrated its 90th anniversary in May 2014. The company is recognized as the largest HVAC (Heating, Ventilating, Air Conditioning) manufacturer in the world. DIL is primarily engaged in developing indoor comfort products, systems and refrigeration products for residential, commercial and industrial applications. Its consistent success is derived, in part, from a focus on innovative, energy-efficient and premium quality indoor climate and comfort management solutions.

Our continuing commitment to quality products may mean a change in specifications without notice.
